

5 Ways AI Is Rewriting How We Learn

AI Playbook Weekly

**AI isn't just
improving
education.**

It's fundamentally
**restructuring the
production of
human capital.**

AI Tutoring Doubles Learning Gains vs. Traditional Classrooms

2x

learning gains

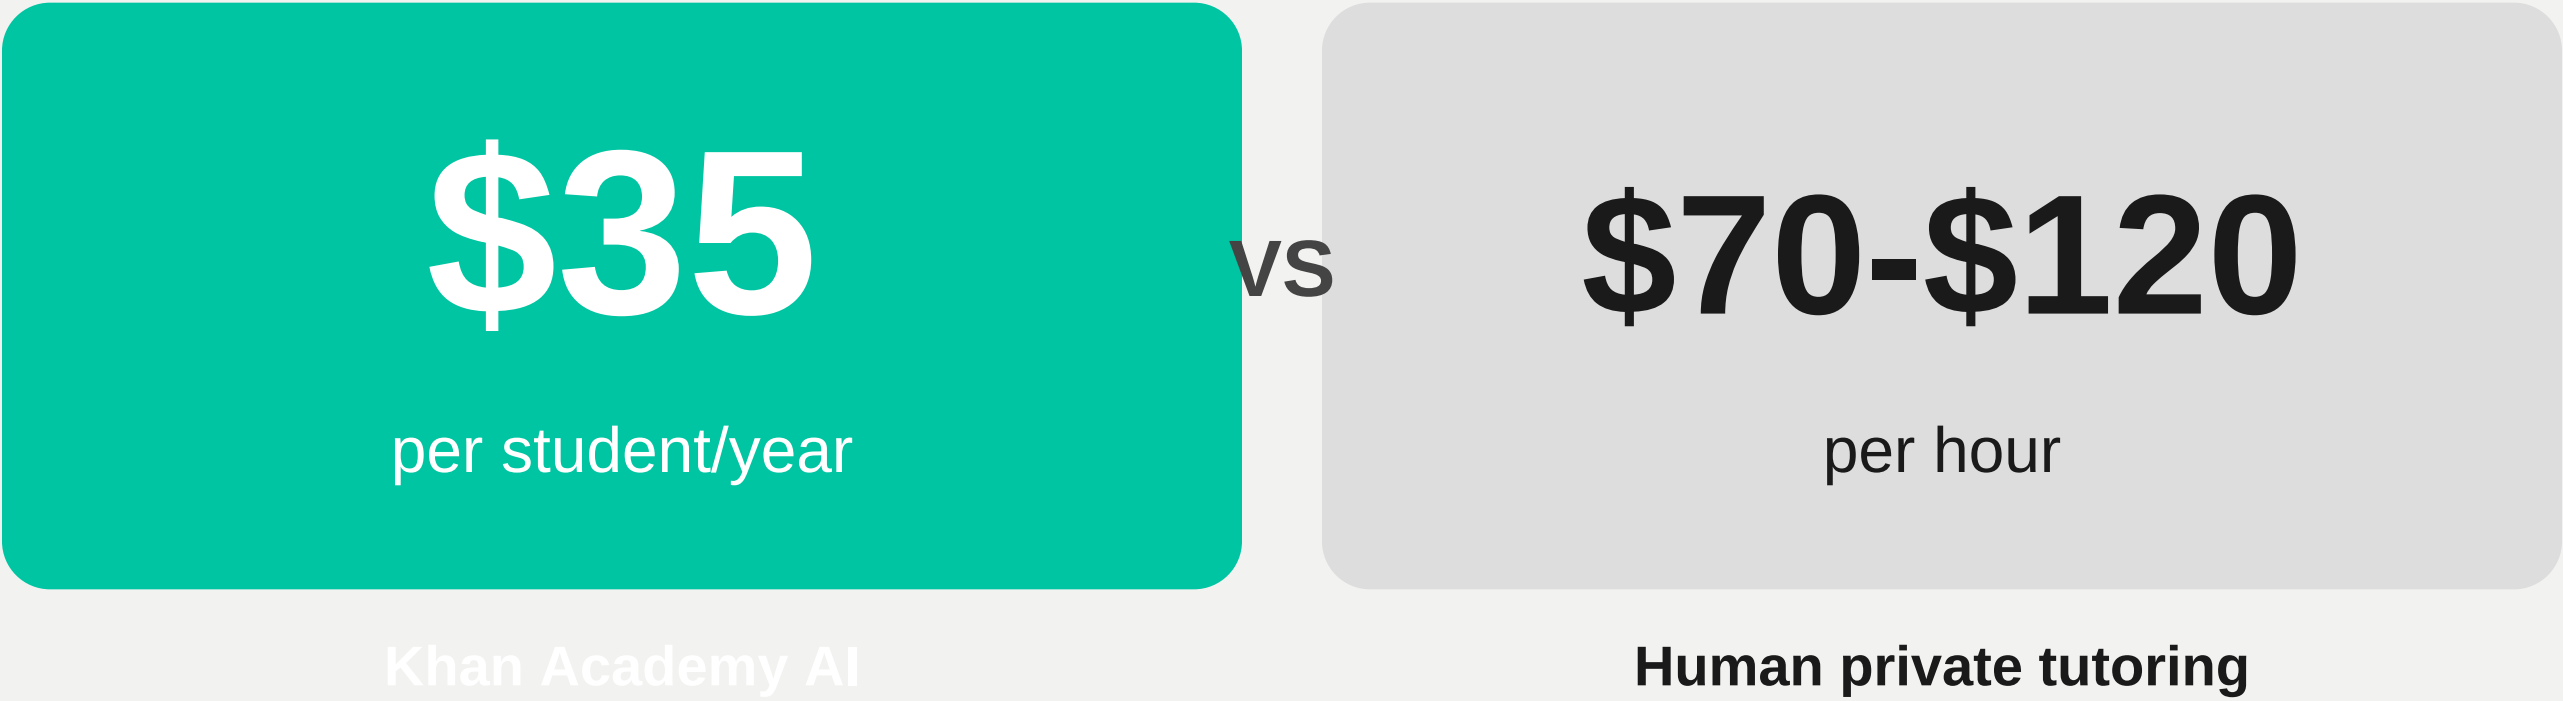

Effect size: 0.73 to 1.3 SD

Highly significant

Harvard RCT (N=194) · Kestin et al.
Scientific Reports (Nature), 2025

AI Delivers Tutoring at a Fraction of the Cost

\$5.88B
EdTech AI market size (2024)

3 The Reskilling Crisis Is Massive

\$1.1T

annual cost to U.S. economy
from skill gaps

59%

of global workforce needs
significant reskilling by 2030

World Economic Forum, Future of Jobs Report 2025

AI Skills Deliver Explosive Wage Premiums

56%

wage premium for verified AI skills

up from 25% last year

4x

faster revenue-per-employee growth
in AI-exposed industries

PwC Global AI Jobs Barometer, 2025

AI Is Compressing Discovery Timelines Dramatically

6 yrs to 30 mo

drug discovery timeline compressed
at \$2.6M — Insilico Medicine

214M

proteins predicted by AlphaFold
used by 3M+ researchers in 190 countries

Nature Medicine 2025 · Google DeepMind

AI Is Accelerating Fastest in Low-Income Regions

4x

faster AI adoption in low-income countries
vs. wealthy nations

16%

fewer diagnostic errors with AI copilot
40K patient visits, Nairobi, 2025

Penda Health · OpenAI · Kenya MOH

Skills Now Have a Short
Half-Life — Degrees Are
Losing Signal

2.5 yrs

average technical skill expiry

17.8%

of U.S. jobs require a 4-year degree

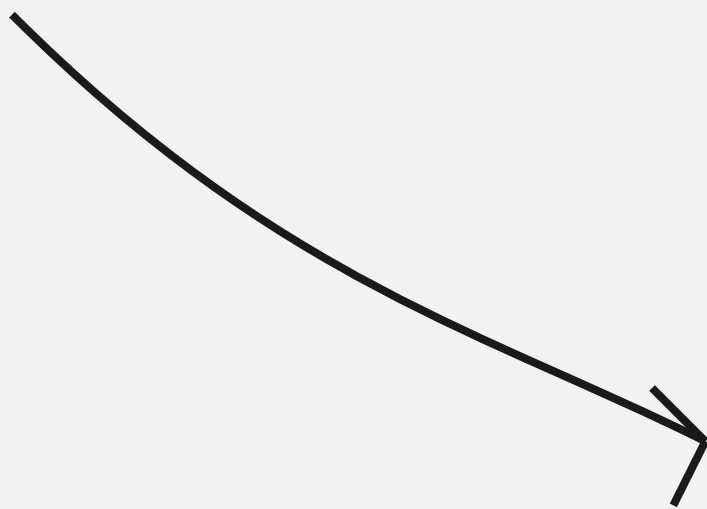

down from 20.4%
